

## January 2011

### Happy New Year!

From all of us at think architecture+design we would like to wish everyone a happy, healthy and prosperous new year.

### Website Launched

At long last we can announce that our new website is complete and now online. After many months in construction we hope that you will find the site useful and informative. Because we have chosen to manage and maintain our own site it will always be up to date with the latest practice news, so please keep checking back for regular updates.

Click on this ecard to follow the link to view our new website or alternatively go to: [www.thinkarchitectureanddesign.com](http://www.thinkarchitectureanddesign.com)

### Planning Approval

We are proud to announce that planning permission was gained on January 12th 2011 for 21 Queen Street, Leeds (see image).

This marks the first planning approval for the practice and should see the existing outdated 1980's building transformed into a contemporary office environment. Situated on a key vista in the 'business district' of the City '21' is well placed to provide an environmentally sustainable regeneration solution in these economically challenging times.

With work due to commence on site during Spring 2011 and completion scheduled for early 2012 we hope this development will herald the recovery of the commercial office development sector in Leeds.
